to solve the world's problems*

## North Carolina's Future City Competition

2010 – 2011 school year

In partnership with NC State University College of Engineering

The Future City Competition is a long-running national competition open to 6th, 7th, and 8th grade students that promotes engineering and technology. Now in its 9th year in North Carolina, the competition annually awards more than \$5,000 in prizes and teacher stipends!

**Teachers - get a jump start on building your Future City team.**

**Register now.**

For further information
